Gentlemen:

We enclose herewith our statistics for the season of 1921. We were unable to get our report in sooner than this, as our Alaska Superintendent suffered an accident to his hand, which prevented the figures reaching us until a very recent date.

In explanation of the small figures of this year's pack, will say that we simply stationed one additional man at the plant to take what fish were brought in to us, and made no effort to secure a pack of any size.

Very truly yours,

FAH/ZS
